Digital Imaging
2016-2017 Syllabus

Course Description

A beginner level year long course focusing on computers and audio visual equipment to create graphic design and digital artwork. Students will use a digital camera and scanner to import photographic images. Both design and photography will be considered in the creation of a variety of projects that encompass the technical skills of using Photoshop to produce both fine art and commercial assignments. Instruction will develop an understanding for the role of digital imaging in contemporary culture, provide for artistic growth, and encourage creative expression. Assignments will challenge students through a variety of short exercises and sustained projects. This course will provide a foundation for further studies in the visual arts.

Grading

In Digital Imaging, evidence of mastery of the standards is demonstrated through the categories of participation, practice, and application. All grades will be based on a straight percentage determined by a weighted grading scale. Grades are weighted as follows:

10%	**Participation** (Attendance)
30%	**Practice** (Do Now assignments, Homework)
60%	**Application** (Labs, Group Work, Projects)
100%	Overall Grade

It has been my experience that a student gets as much out of a class as they put into it. If you *participate in class*, *complete all assignments* and *ask for help* as needed, you should have no problem earning a *passing grade*.

The **Grading Scale** will be:

A	90 – 100
B	80 – 89
C	70 – 79
D	60 – 69
F	59 and Below

Late Work & Project Extensions

Students can request a project extension by emailing Mr. Shipley prior to the assignment due date. For late work grades will be adjusted as follows:

-5%	**up to 1 week late**
-10%	**more than 1 week late**

Equipment Responsibilities

Before checking out camera equipment you must return the Equipment Release Form signed by yourself and a parent/ guardian. If you damage or lose equipment, it is your responsibility to replace it. If you do not replace lost or damaged equipment, there will be consequences (see contract).

Classroom Community Expectations

As members of the Digital Imaging classroom community, each and every one of you will be held to the following expectations:

Academic Expectations	
HONESTY	• Be truthful at all times. ● No lying, cheating, or stealing. Plain and simple. ● (And yes, copying is a form of cheating).
EFFORT	• Come to class prepared with the necessary materials and ready to learn. ● Do your personal best – try every activity. ● Complete your homework and other assignments on time and to the best of your ability.
ENGAGEMENT	• Actively listen to the speaker. ● Ask questions when you are confused. ● Participate in class discussions and activities..

Behavioral Expectations	
RESPECT	• Adhere to the "Golden Rule" and treat others the same way **you** would like to be treated. ● Take care of our classroom and the things in it. ● Watch your language!
RESPONSIBILITY	• Take responsibility for your own actions. ● Recognize the choices you make have consequences. ● Use constructive means to solve conflict. ● Consult your better judgment at all times.
COOPERATION	• Work collaboratively with your peers. ● Encourage each other and help your peers with confusing concepts. Two heads are better than one! ● There is no such thing as a dumb question. ● Bullying, name-calling, and put-downs of any kind are absolutely unacceptable.
POSITIVE ATTITUDE	• There will be no "I can't" statements in this classroom. Only "I can try"… ● Give yourself a chance, keep your chin up, expect success, and you will achieve!
