**Grading**

In Photography 2, evidence of mastery of the standards is demonstrated through the categories of participation, practice, application, and assessment. All grades will be based on a straight percentage determined by a weighted grading scale. Grades are weighted as follows:

10% **Participation** (Attendance)
30% **Practice** (Do Now, Homework)
60% **Application** (Labs, Group Work, Projects)
100% Overall Grade

It has been my experience that a student gets as much out of a class as they put into it. If you *participate in class*, *complete all assignments* and *ask for help* as needed, you should have no problem earning a *passing grade*.

The **Grading Scale** will be:

**A** 90 – 100
**B** 80 – 89
**C** 70 – 79
**D** 60 – 69
**F** 59 and Below
